impurities and disease. "The blood being the life of the

The following is a certificate of Mr. Wm. J. Richards, of Cincinnati, a well known practitioner of more than twenty years standing:

To all whom it may concern, I make the following statement: Conscious that it may appear unprofessional, it is only from a perfect conviction and thorough knowledge of the essential benefit and scientific origin of the preparation spoken of, that I feel constrained from a sense preparation spoken of, that I feel constrained from a sense of duty to comply with the request of the proprietor.

I am a most inveterate opposer of quacks and quack medicines in any form, and most fully coincide with the clauses in the code of ethics lately adopted by the medical convention of Ohio, relating particularly to that sub-ject; it may therefore be inferred that it is only from per-lt has now become the only medicine for family use, an sonal experiment with the preparation, and a positive assurance of its beneficial results, that induces me to recommend it as being all that it represents itself to be.

The patient, Mr. Charles Wade, sixth street, market space, whom I have allowed to try the effect of the med-

icine—but which I could have done under no considera-tion whatever, had I not seen a copy of the receipt from and I am obliged to confess its effect was at least surprising, inasmuch, that after the consumption of the second
bottle, my professional visits were discontinued, though I
requently saw my patient afterward, restored to perfect
health

The preparation is called 'MR. Rodger's Compound Syrup or Liverwort and Tar," and from the examination of the receipt and the success in my own experiment, I do conscientiously recommend it as a useful and a cure follows by a few days use of this article: it is on the practitione. It is not convinced and a cure follows by a few days use of this article: it is far before any other preparation for this disease, or for practitione. It is not convinced any other disease originating from impure blood.
